---

September 2013

Our church needed to build as a result of a devastating fire. In searching for a partner in this important process we landed with The McKnight Group. Their experience as a firm was quickly apparent as we held congregational dream sessions.

As a great innovative team, they took our congregation's dream and turned it into a relevant and cutting edge tool that now attracts people. Our two year old structure is now home to some strategic ministries that have changed the life of our congregation for the better.

We as a congregation prayed, dreamed, sacrificially gave and trusted. The McKnight Group listened, designed, built and delivered a wonderful and useable facility for years to come. This team of anointed, ministry focused people has the ability to deliver a building that will challenge and change your heart.

David E Childers, Lead Pastor  
Gateway Church of the Nazarene  
Oskaloosa, Iowa
